

Rotterdam, February 17th, 2012.

Dear Mordechai,

Thank you very much for your letter. It is a good thing that you and I can communicate by e-mail, even though it will be much better to meet face to face, in freedom!

Let me first reply to your question why I sent that first card to you 25 years ago. In those days in the Netherlands there were large demonstrations against "the bomb". I participated in them but it was to no avail: my government agreed to the request of the US to place in this country nuclear armament pointed against Russia. I also paid a visit to Israel including Jerusalem and got hold of a copy of your "I am your spy" in Hebrew. I translated it into Dutch and published two articles about you in a Dutch newspaper. I felt and still feel that you acted on behalf of many others including myself. However, you were the only one who had to pay a high price because of the injustice being meted out to you. So out of my own frustration, because I could do nothing about it, and out a sense of solidarity towards you, I began to send you cards, even though I knew that was quite futile but I could not do anything else.

I have known brother Marcel Dubois. He was a Roman Catholic monk of French origin as well as a philosopher and a very honest man. I am glad to hear that you met him, before he died, and that he had discovered the injustice committed against you as well as against the Palestinian people. True, it took him a long time to discover that, just as was the case with me.

I must admit that not only Israël suppresses another people and robs them. So did the Dutch in Indonesia and the French in Algeria. The Israeli author Avraham Yehoshuah commented: "In both cases it happened far away from the people in the Netherlands and in France, so they could pretend not to know about it. However, the injustice committed by Israel is at our doorstep and we have no excuse." I do respect those Israeli Jews of "Breaking the Silence" and of B'Tselem. Unfortunately they are a small minority.

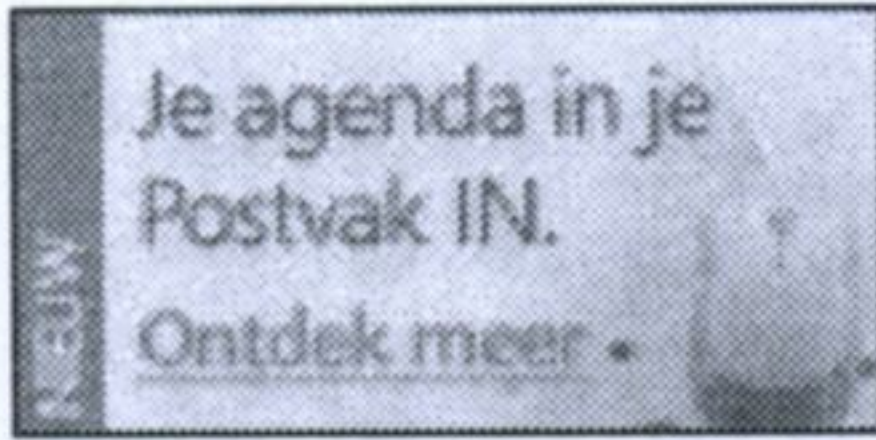

The Jewish religion I respect as far as it does not consider itself superior to others. In the Old Testament you have the story of king Ahab who desired the vineyard of Naboth (I Kings ch. 21 vs. 1-16). Surely people nowadays who are robbing their neighbours, will be punished, just as Ahab once was.

I wished to reply to your letter as quickly as possible, as next week I shall have to go to hospital for the next blood transfusion.

Warm greetings, Johan Snoek.

Dear Johan.

I read your Long letter.very interesting letter.

The first question is why you did wrote ,send.it 25 years ago with your first card.?

Because just card from unknown Dutch priest did not help much in prison.

You can see when it was an israel prisoners ,even in Syria those spies succeeded to arrange for you to meet and freedom for them in short time,But in my case they succeeded to convince you enough cards,meet the priest who meet me,go to his church in Australia,write to israel president,continue to be in touch but even until today we have not meet in Freedom.why because that is the jews of israel too much power barbaric state system,and all the world let them do what they want.(i am not blaming you,you want to do a lot but spies helping israel to get what they want,or may be let the israel prove that the israel jews are not less criminals like in may other undemocratic state,that is the prove that only Christianity could bring ,create real democracy,human rights,not a jewish state, jewish society who are following the old testament will not produce the Democracy system.).

I think what happened to you in your thinking about israel state,it happened also to many other Christians in EU,and in US,they wake up to see how many crimes israel committed against human being in very short time,even in the first year before it became a state.I met few years ago,fr' Marcel Dubbeua,just few years before he died,he also was very pro israel until the 1990s' when he wake up to realize that many Christians are supporting a jewish dictatorship.fascist,racist apartheid regime.

At least you lived to see and understand the problem with this jewish state,you dedicated a lot of your life time to help jews,and celebrate with the new state,until you found out that israel is just one more state like many other states,and more interesting ,no one know how this state going to survive,or continue what kind of state it will be,

I want to thank you for all your support,and remembering me like many others,but for me that was not enough because I want to be free,to end my suffering here.no one until now succeed in this,  
But I am sure we will meet in freedom very soon.

All the best,see you in Freedom Now.
